

Where We Serve

Moi Teaching and Referral Hospital (MTRH) is located along Nandi Road in Eldoret Town, Uasin Gishu County (310 kilometres Northwest of Nairobi-Kenya). It is a Multi-Specialty International Teaching and Referral Hospital serving Kenya, parts of Eastern Uganda, South Sudan, Northern Tanzania, and the Democratic Republic of Congo with a population of over 25 million.

MTRH- Comprehensive Care Clinic (CCC) Background

In 2001, Prof. Joe Mamlin started the HIV clinic in Room 49 every Thursday. In May 2002 Prof. S. Kimaiyo started his clinic every Wednesday and later Prof. Siika and Prof. Nyandiko joined in to start their clinics. In 2005, all the clinics were moved to the AMPATH Centre building with all the consultants' clinics running as separate modules though full clinics. The building was designed to accommodate the different clinics (modules) that have been running to date serving 14,013 People Living with HIV (PLHIV) (November 2023). The clients are distributed in 3 Adult clinics, 1 Pediatric clinic. Later the adolescent clinic was hosted in a youth-friendly centre. Pregnant and Breastfeeding Women, Tuberculosis Clinics, Private-public Partnership Patients (PPP), research clinics are integrated within the larger Hospital.

Focus Area

- HIV prevention (Pre exposure Prophylaxis (PrEP), Post exposure Prophylaxis (PEP) Prevention of Mother to Child Transmission (PMTCT), HIV Counselling and Testing Services (HTS)
- HIV care and Treatment for PLHIV with differentiated service delivery for special groups e.g. Pediatrics, Adolescents, Adults, Pregnant and Breastfeeding Women, TB patients all in different service delivery points within one facility.
- Treatment of HIV Comorbidities amongst the People Living with HIV (PLHIV) namely; Hypertension, Diabetes, Mental Health
- Family Planning among women of reproductive age.
- Response to Sexual and Gender Based Violence (SGBV) and Violence against Children (VAC).
- Orphaned and Vulnerable Child services
- Cervical Cancer Screening for women.

KEY OBJECTIVES

- Patient-centered approach for different populations
- Increased Access and Demand for Quality HIV Prevention Services including HIV testing
- Increased Utilization and Coverage of Quality HIV Treatment Services
- Increased Access to Quality Health and Social Services for OVC and their Families.

KEY ACHIEVEMENTS

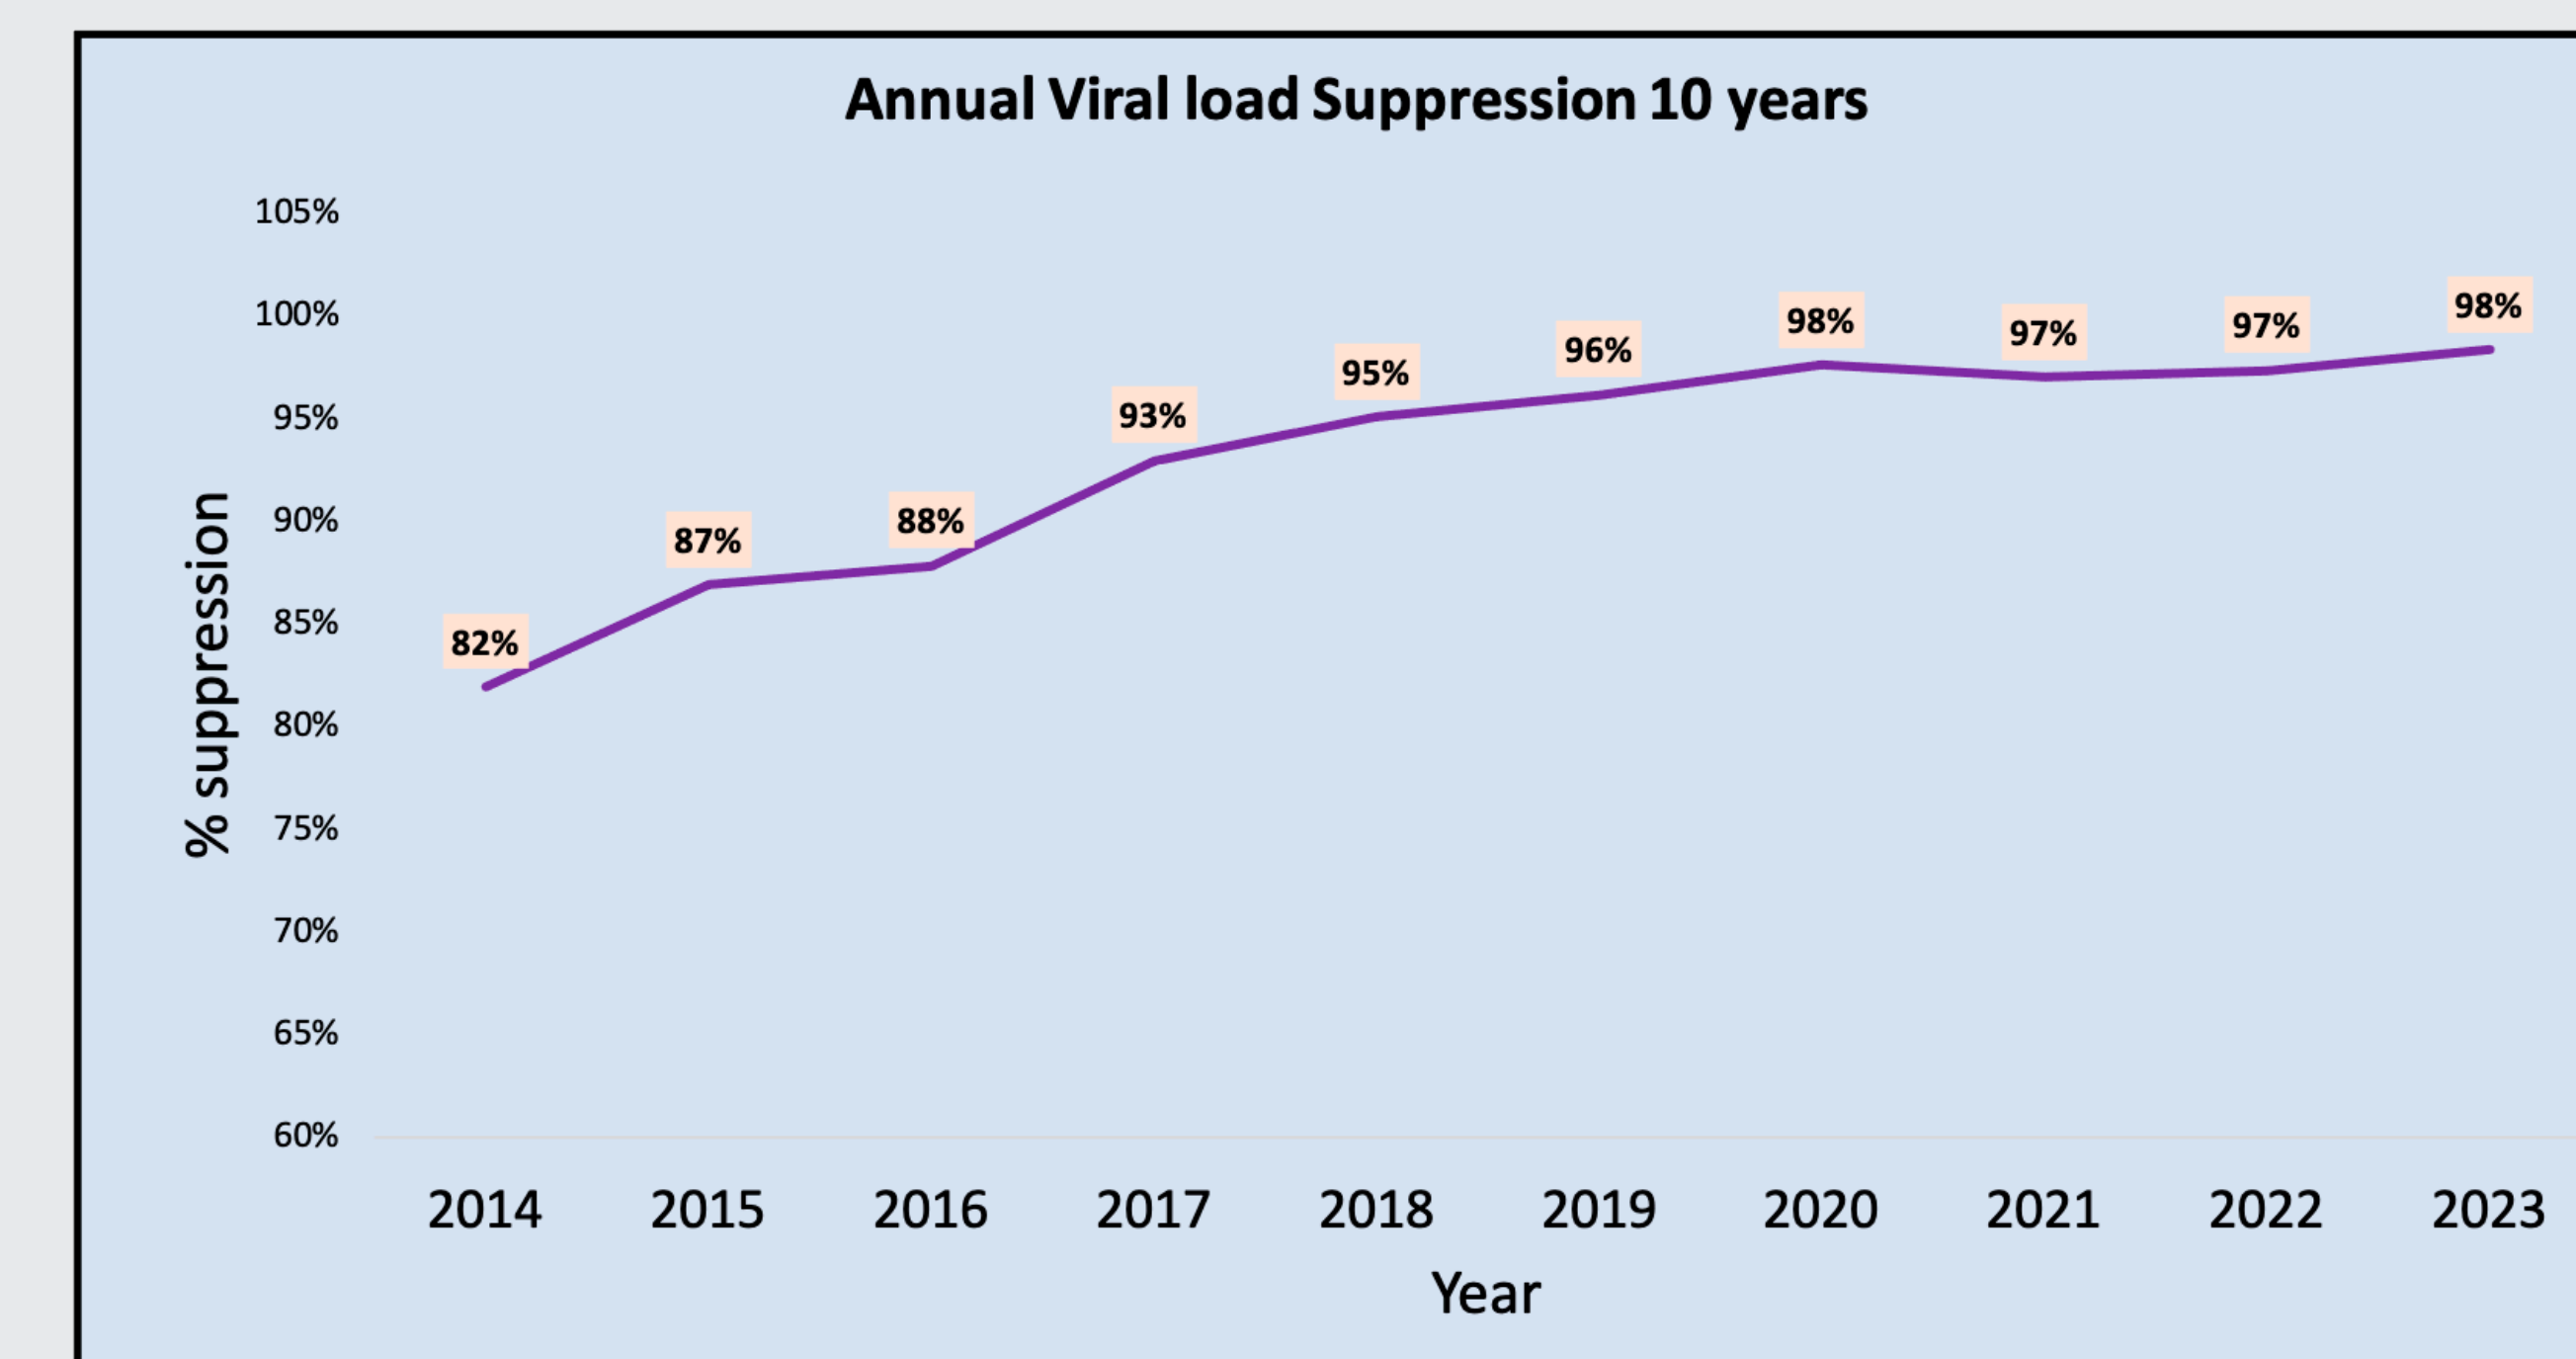

- Management of the large number of patients made easier by redistribution in the smaller clinics resulted in enhanced quality of care.
- Overall Viral Load suppression at 98%.
- Overall proportion of patients Interrupting HIV treatment was 0.6% as at September 2023 way below the national target of treatment interruptions below 1% of the patients currently on treatment.

Increase in viral suppression.

Vision for the Future

- Scale up community approaches for early diagnosis and treatment deliveries.
- Fully Fledged HIV /Non Communicable Diseases (NCD) integration
- Provision and Implementation of Geriatric Package of Care for aging PLHIV
- Transition from PEPFAR/Donor-funding to Kenya Ministry of Health- Journey to Self reliance (J2SR)

Challenges

Reduced funding affecting program implementation and sustainability

What is needed to accomplish the objective or grow;

- Concerted efforts from all stakeholders in offering quality sustainable care to the population for example Governments, health Institutions, collaborators.
- More funding to fast track community approaches and building capacities in the care providers.
- Leveraging on lessons learned from existing programs and research.

Commitment to Equity

- Shared belief that health is a fundamental right and that a holistic approach is the best way to support the interconnected aspects of physical, mental and social health and well being.
- Conforming to the programming designed in response to needs of the populations by ensuring children, adolescents, adults, pregnant and breastfeeding women are given the best quality of care in their various clinics which are fully/semi autonomous yet enjoying the shared specialized services at the same facility i.e. ART Pharmacy, Lab, Radiological Investigations, Revolving Fund Pharmacy, In-patient Facilities, consultant reviews among others.
